3D Scanning for Insurance and Restoration

Whether you're an insurance carrier, a claims adjuster, restoration company, or property owner, Matterport delivers accurate, transparent, and fair documentation and valuations. Save time, cut costs, and close claims much faster.

Matterport TruePlan™ for Xactimate®

An invaluable new tool to save time and money for insurance and restoration industries.

A first-of-its-kind service, Matterport TruePlan™ generates SKX files in both floor plan and 3D views from Matterport models that can be easily imported into Xactimate® software.

Restoration contractors and insurance adjusters no longer need to manually measure and sketch properties to determine the value of the property loss and estimate repair and rebuilding costs. Our turnkey TruePlan add-on service delivers an accurate Xactimate-compatible file (.SKX) within 48 hours of being ordered from the Matterport platform.

Get the Matterport Advantage

3D walkthroughs provide accurate, easy-to-use documentation that can serve as a single source of truth from initial policy decisions through claims handling.

Our platform helps you reduce time spent in the field, rectify discrepancies in damage claims, and save time.

Comprehensive documentation for insurance and restoration professionals

There's no need for hundreds of photographs, measurements, repeat site visits, and written statements with 3D walkthroughs. You can provide comprehensive loss documentation in an indisputable single source of truth.

- *Increase topline revenue by offering the most accurate documentation*

- *Speed up claim approvals and close cases faster with more thorough documentation*
- *Decrease the number of policyholder breakage claims with a pre-mitigation scan that captures everything in its current state.*

Accurate, updatable documentation throughout the insurance cycle

Insure with the most comprehensive pre-loss asset documentation and risk management with the digital twin that allows for more informed and accurate underwriting practices.
